Education

University of Agriculture, Faisalabad (UAF)

September 2023 – 2027

BS (Computer Science)

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Operating Systems, Web Development.
- Activities: Coding Society Member, Google Developer Student Club, LeetCode Problem Solver.

Experience

Full Stack Developer (Trainee / Self-Learning Projects)

Jan 2024 – Present

- Building and deploying full-stack applications using **Angular**, **.NET Core**, **SQL Server**, and **Bootstrap** following the **Code First** approach.
- Practicing **RESTful API development** with authentication and authorization using **JWT Tokens**.
- Working on **Azure** for app hosting and database integration.
- Actively learning **cloud deployment**, **responsive UI design**, and **real-world architecture** for scalable web systems.
- Developed multiple practice projects with clean code, reusable components, and Git version control.

Projects

ExamDynamics | Angular, .NET, SQL Server, Bootstrap, JWT

- A full-stack platform for students to **prepare for exams**, attempt quizzes, and track performance analytics.
- Implemented **JWT authentication** and **Role-Based Access Control (RBAC)** for secure login/signup.
- Integrated SQL Server database using **Entity Framework Core (Code First)**.

FalconShop (E-commerce Website) | Angular, .NET Web API, SQL Server, Bootstrap

- Developed an **Amazon-like online store** with product listing, cart management, and order processing.
- Built an admin panel for managing inventory and user orders securely.

Portfolio Website | Angular, Bootstrap, .NET Core

- Created a **personal portfolio** website with multiple pages (Home, About, Projects, Contact, Skills, Admin).

JWT Auth System | Angular, .NET Core, SQL Server

- Implemented full **login, signup, and logout functionality** using JWT authentication.

Technical Skills

Languages: C#, JavaScript, TypeScript, SQL, HTML, CSS, C++, Python (Basic)

Frontend: Angular, Bootstrap, Tailwind CSS, HTML5, CSS3

Backend: ASP.NET Core Web API, REST API Development, Entity Framework Core

Database: SQL Server, Supabase (Basic), PostgreSQL (Basic)

Cloud & Tools: Microsoft Azure, Git, GitHub, Visual Studio, VS Code, Postman

Other Skills: Authentication (JWT), API Integration, CRUD Operations, Responsive UI Design, LeetCode Problem Solving
